GraphQL Integration In Service Architectures

There are two integration options.

1. Provide an extra read model endpoint that understands GraphQL queries

GraphQL Integration In Service Architectures

There are two integration options.

1. Provide an extra read model endpoint that understands GraphQL queries

Of course it is possible to create a special read model for this purpose, instead of using an existing one

GraphQL Integration In Service Architectures

There are two integration options.

1. Provide an extra read model endpoint that understands GraphQL queries

Of course it is possible to create a special read model for this purpose, instead of using an existing one

2. Create an accumulation service for dynamic GraphQL queries
